Henrieta Tulejová, Founder, Advance Healthcare Management Institute Moderator: Richard Fides, Grape
11:45 – 12:30	Industrial Innovation Panel Discussion How Innovation, Automation and AI Are Transforming Industry and Retail: Practical Business Insights <i>This panel discussion will explore how innovation, automation and artificial intelligence are transforming industrial production and retail while contributing to long-term competitiveness. Industry leaders will share practical insights on scaling innovation, increasing efficiency business models across Germany and Slovakia. The panel will also address the relevant legal framework of this topic in the European context.</i>	Healthcare Innovation Expert Panel Availability of innovative solutions in laboratory diagnostics in Slovakia and other EU countries <i>Laboratory diagnostics is a key pillar of modern medicine, constantly advancing thanks to rapid technological progress. This panel focuses on the current availability of innovative solutions and their real impact on everyday clinical practice. At the same time, we will evaluate the challenges and barriers, including the lack of an adequate legislative framework, that may hinder the smooth implementation of modern methods into standard routine laboratories. The main goal is to demonstrate how better accessibility to innovations can streamline the diagnostic process and ultimately significantly improve patient care.</i>

	Panelists: 1. Martin Baraniak, Managing Associate, Kinstellar 2. Milan Jurky, CEO, Schaeffler Slovakia 3. Branislav Pulis, CRO & Co-Founder, Brightpick 4. 12:30 – 13:30	Lunch Break Networking Lunch at Restaurant WERK	
13:30 – 15:30	Sustainability <i>This session will focus on how innovation is driving sustainability across key sectors of the economy. It will highlight new approaches, technologies and best-practice solutions that help companies improve energy efficiency, reduce emissions and strengthen long-term competitiveness. Drawing on examples from leading industrial players, including the automotive sector, as well as highly regulated industries such as healthcare and pharmaceuticals, the discussion will show how innovation can support sustainable transformation in practice.</i>	
13:35-13:45	Keynote Szabolcs Hodossy, State Secretary, Ministry of Economy of the Slovak Republic	
13:45 – 15:25	Sustainability Innovation Carousel: Energy Efficiency in Practice <i>Moderated rotating discussion</i> How can sustainability become a driver of competitiveness in practice? This dynamic session will bring together companies from different sectors to share concrete examples of how they improve energy efficiency, optimise processes and scale sustainable solutions. Instead of a traditional panel, the session will follow a fast-paced carousel format built around short business insights and moderated discussion. Moving from framework conditions to practical implementation, the session will combine systemic perspectives with real business experience across sectors.	

	The discussion will be organised in three thematic panel discussions: 1: The Future of Energy: Connected and Intelligent Focus: smart infrastructure, energy systems, data-driven energy management, energy services and renewable solutions 1. Roman Michnica, Managing Director , Siemens Energy 2. Milan Zvara, Head of Corporate Sustainability & Development Department, ZSE 2: The Intelligent Building: Materials, Energy and Smarter Workspaces Focus: energy-efficient buildings, renovation smart energy technologies and material-efficient office interiors, with a discussion on what Slovakia needs to accelerate building renovation, reduce lifecycle costs and make sustainable buildings more affordable and competitive. 3. Maroš Kováč, Sales Manager, Ahrend 4. Peter Robl, Public Affairs Manager Eastern Europe Knauf Insulation 5. Matúš Jenčík, Sales Manager, Siemens Slovakia 3: Smart Operations: Energy Efficiency in Industry, Retail and Logistics Focus: energy savings in production, store networks, logistics, process optimisation, technologies, monitoring and operational efficiency. 1. Jürgen Wiedemann, Vice President, Head of Pharma Technology Systems, Bayer AG in Leverkusen 2. Miroslav Havlík, Managing Director, Evonik 3. Martin Urban, Managing Director, Jungheinrich 4. Felix Faehre, Director Real Estate & Procurement, Kaufland Slovenská republika 5. Michaela Hletková Ploszeková, Head of Environmental Department, Volkswagen Slovakia Moderator: Kristína Kumor
15:25 – 15:30	Closing remarks
